## Accommodations

Since many patients travel to Tulane Medical Center for treatment, we operate the Deming Pavilion Guest House as a low-cost alternative to a hotel. Ten furnished apartments are adjacent to the Medical Center, and are residential in design. Each apartment contains a fully equipped kitchen, telephone with voice mail, access to a courtyard patio, exercise room, and wet sauna/steam room. Transplant patients and their families receive priority when making reservations. For reservations, contact Volunteer Services at (504) 988-5868.

According to need, families may also stay at the nearby Ronald McDonald House, where payment is made on a donation basis. Tulane Medical Center can also arrange free transportation to and from the facility. Please call (504) 486-6668 for more information.
